PRICE LIST 2025

Section 01

DIAGNOSTICS OF YOUR MOTORCYCLE

An objective assessment of technical condition — before a purchase, before the season or when locating a fault. You get an accurate picture of the motorcycle's condition and a prioritised work plan.

■ ALL PRICES INCLUDE TAXES AND FEES

PRE-PURCHASE INSPECTION

150 EUR

Full technical inspection of the motorcycle before the deal

- Visual inspection
- Engine check
- Leak inspection
- Brake check
- Suspension check
- Frame & crash-damage check
- Electrical check
- Tyre condition check
- Chain / belt / shaft check
- List of recommendations

FAULT DIAGNOSTICS

50-350 EUR

Locating a specific fault — electrics, engine, running gear

PRE-PURCHASE

150 EUR

- Fixed price
- 10-point inspection
- Written report

FAULT FINDING

50-350 EUR

- Depends on case complexity
- Electrics, engine, running gear
- We find the cause, not the symptom

PRE-SEASON

from 100 EUR

- Preparation for use
- Clearance for long trips
- More in Section 06

Diagnostics is an investment, not an expense. An hour of an engineer's work pinpoints the cause of a fault and assesses the remaining life of key components — before they require major repair. You receive a structured list of recommendations by priority: critical work, advisable work and items that can wait until the next service.

Section 02

SCHEDULED MAINTENANCE

Scheduled servicing to manufacturer standards. Four main brand groups — the price depends on the model and the service interval.

CONSUMABLES INCLUDED

The scheduled-service price includes all necessary consumables and applicable taxes

— oils, oil filters and related consumables: you pay a single amount for fully completed servicing. The only exception is the air-filter replacement on Indian, BMW, Moto Guzzi, Ducati, Japan and KTM models: the filter itself is charged separately (marked in the lists below).

HARLEY-DAVIDSON

300 EUR

- Visual inspection
- Engine check
- Brake system
- Suspension
- Electrical system
- Lighting
- Tyres
- Wheel bearings
- Belt tension
- General re-torque
- Engine oil change
- Gearbox oil change
- Clutch oil change
- Oil filter change
- Air filter clean & oil
- Battery check
- List of recommendations

INDIAN

200 EUR

- Visual inspection
- Engine check
- Brake system
- Suspension
- Electrical system
- Lighting
- Tyres
- Wheel bearings
- Belt tension
- General re-torque
- Engine oil change
- Oil filter change
- Air filter replacement FILTER NOT INCLUDED
- Battery check
- List of recommendations

BMW · MOTO GUZZI

from 180 EUR

- Visual inspection
- Engine check
- Brake system
- Suspension
- Electrical system
- Lighting
- Tyres
- Wheel bearings
- Final-drive check
- General re-torque
- Engine oil change
- Gearbox oil change
- Final-drive oil change
- Oil filter change
- Air filter replacement FILTER NOT INCLUDED
- Battery check
- List of recommendations

DUCATI · JAPAN · KTM GROUP

from 150 EUR

- Visual inspection
- Engine check
- Brake system
- Suspension
- Electrical system
- Lighting
- Tyres
- Wheel bearings
- Chain tension
- General re-torque
- Engine oil change
- Oil filter change
- Air filter replacement FILTER NOT INCLUDED
- Battery check
- List of recommendations

The "from" price for BMW, Moto Guzzi, Ducati, Japanese brands and KTM-group machines is a starting price — the exact amount depends on the model and is confirmed in a written estimate before work begins. Valve adjustment and carburettor service are not part of scheduled maintenance — see Sections 03 and 04.

Section 03

BRAKES, CONSUMABLES AND CARBURETTORS

Replacement of fluids, regular consumable operations and fine work on the fuel system.

Prices are for labour; parts and fluids are not included unless stated otherwise.

■ ALL PRICES INCLUDE TAXES AND FEES

BRAKE SYSTEM

BRAKE FLUID · NON-ABS

100 EUR

- Brake fluid replacement
- Brake bleeding
- Hydraulic clutch bleeding

BRAKE FLUID · ABS

from 150 EUR

- Replacement with ABS-circuit bleed
- Brake bleeding
- Hydraulic clutch bleeding

REGULAR CONSUMABLE WORK

AIR FILTER CLEAN & OIL

Servicing of free-flow / OEM filter

45 EUR

AIR FILTER REPLACEMENT

Price depends on model and filter type

from 20 EUR

FORK SEAL & DUST-SEAL REPLACEMENT

Includes fork strip-down and oil change

from 150 EUR

BATTERY REPLACEMENT

Removal, fitting, charging-circuit check

from 20 EUR

CARBURETTOR SERVICE

1 CARBURETTOR

from 75 EUR

- Carburettor cleaning
- Carburettor rebuild
- Carburettor tuning
- Mixture tuning with AFR control

2 CARBURETTORS

from 150 EUR

- Carburettor cleaning
- Carburettor rebuild
- Synchronisation
- Carburettor tuning
- Mixture tuning with AFR control

4 CARBURETTORS

from 200 EUR

- Carburettor cleaning
- Carburettor rebuild
- Synchronisation
- Carburettor tuning
- Mixture tuning with AFR control

Section 04

VALVES, WHEELS AND CHAIN

Valve-train adjustment, tyre fitting by motorcycle class and complete chain-drive care.

■ ALL PRICES INCLUDE TAXES AND FEES

VALVE ADJUSTMENT

ENGINE TYPE	CLEARANCE CHECK ONLY	CHECK + ADJUSTMENT
BMW BOXER	150	300
JAPANESE INLINE 2 / 4	250 / 400	300 / 650
KTM / JAPANESE	350-450	550-750
MOTO GUZZI / VINTAGE	100	150
DUCATI DESMO	550	1200

Prices in euro. Ducati Desmo — the desmodromic mechanism requires separate expertise, so Desmo service is significantly more expensive than a standard adjustment.

TYRE FITTING · LABOUR PRICE

OPERATION	STREET / SPORT / NAKED	CHOPPER / TOURING	CUSTOM
FRONT WHEEL	40	80	100+
REAR WHEEL	60	100	100+
FRONT + REAR SET	90	150	200+
PUNCTURE REPAIR	40+	40+	40+

CHAIN CLEAN, LUBE & ADJUST

50 EUR

Complete chain-drive care — extends chain and sprocket life

- Chain cleaning
- Chain lubrication
- Tension adjustment
- Full chain care
- Chain & sprocket condition check

The chain rewards regularity. Timely care noticeably extends the life of the chain and sprockets — one of the cheapest preventive jobs in the price list. A neglected chain-and-sprocket set costs many times more.

Section 05

ACCESSORIES AND TUNING

Fitting of accessories, electrical equipment and tuning components. Prices are for fitting labour; the components themselves are quoted separately. A "+" mark means "from the stated amount".

■ ALL PRICES INCLUDE TAXES AND FEES

ACCESSORIES

CRASH BARS	50+ EUR
LUGGAGE SYSTEMS	50+ EUR
HARD CASES	100+ EUR
HAND GUARDS	50+ EUR
ENGINE GUARD	50+ EUR
ELECTRICAL EQUIPMENT	
USB SOCKET	100+ EUR
AUXILIARY LIGHTS	150+ EUR
INDICATORS	150+ EUR
BRAKE LIGHT	100+ EUR
HEATED GRIPS	100+ EUR
BLUETOOTH / AUDIO	100+ EUR
NAVIGATION	150+ EUR

TUNING

EXHAUST	100+ EUR
AIR CLEANER / INTAKE	100+ EUR
FUEL TUNER	150+ EUR
HANDLEBAR	100+ EUR
RISERS	100+ EUR
FOOT PEGS	100+ EUR
FORWARD CONTROLS	100+ EUR
BRAKE LINES	150+ EUR
PERFORMANCE PARTS	100+ EUR

Fitting is half the result. Auxiliary lights, a fuel tuner or performance components only deliver with correct installation and setup. We select components for your model, agree the estimate and fit to torque spec.

Component sourcing. OEM, aftermarket and tuning parts from major international catalogues. One contact for both service and parts: no need to source parts yourself.

Section 06

SEASONAL PREPARATION AND OTHER WORK

Preparing the motorcycle for a new season or a long trip, hourly and non-standard work. Inspection of key systems before use.

■ ALL PRICES INCLUDE TAXES AND FEES

SEASON / TRIP PREPARATION

Comprehensive technical inspection before departure

FROM
100 EUR

- Visual inspection
- Engine check
- Leak inspection
- Brake check
- Suspension check
- Electrical check
- Tyre condition check
- Chain / belt / shaft check
- List of recommendations

OTHER WORK

Work not listed — hourly rate

50 / hour EUR

PRE-SEASON

ROAD CLEARANCE

After winter storage we check the systems that affect safety and reliability: brakes, suspension, electrics, tyres, drive and the condition of key fluids.

PRE-TRIP

LONG ROUTE

Special attention to consumable life and the components critical on a long road. We assess the mileage margin and agree replacements before departure, not en route.

50 EUR / HOUR

HOURLY RATE

For work outside the standard price list — transparent time tracking. The scope is agreed before work starts and fixed in a written estimate.

Transparent timelines and pricing. We state a realistic timeframe and final amount in advance. If additional work is found during the job, we agree it with you separately before continuing. No surprise bills at handover.

Section 07

CUSTOMIZING AND COMMUNITY

Bespoke motorcycle builds and a space where a community forms around the workshop.

BESPOKE CUSTOMS

FROM CONCEPT TO CHAMPIONSHIP BUILD

Full bespoke motorcycle builds — from concept and technical brief to final assembly and entry into international championships. The same engineering approach that earned ICM the AMD World Champions title, the world speed record at Bonneville and the win at the BMW Motorrad Customizing Championship.

We take on the jobs other workshops turn down: tangled wiring, fabrication of non-standard parts, non-standard component fitment, restoration from lost specifications. Custom-project pricing is calculated individually after discussing the concept and technical requirements.

01

LOUNGE AREA IN THE WORKSHOP

Our space displays championship motorcycles and memorabilia — Beckman, Inspirium, Unbreakable and projects shown at the world's biggest exhibitions. Not a museum behind glass, but a living part of the workshop.

02

DROP IN JUST FOR COFFEE

You can drop by without bringing a bike for repair. Coffee, talking machines, discussing projects and routes — it's all part of the ICM atmosphere. Doors open Tuesday to Saturday, 10:00–18:00.

03

RIDERS' COMMUNITY

A community of riders for whom machines are a way of life is forming around the workshop. Group rides, meetups, sharing experience and supporting local motorcycle culture in Greater Lisbon.

Fix your ride & fuel your soul. This slogan captures what we do: we restore the motorcycle to the technical condition it was designed for — and with it, the very feeling of riding you chose it for.

CONTACTS

BOOK YOUR SERVICE

Bring your motorcycle in for diagnostics, discuss a custom project or just drop by the lounge.
WhatsApp is the fastest way to reach us — a reply during working hours usually within an hour.

WHERE ENGINEERING MEETS SERVICE

AMD World Champions 2016 · world speed record at Bonneville
2017 · BMW Motorrad Customizing Championship winner 2023.
The same level — in servicing your motorcycle.

All prices are in euro and include applicable taxes and fees. Prices are indicative: the final amount is determined after diagnostics and depends on the make, model, technical condition of the motorcycle and the actual scope of work. The scheduled-service price includes all necessary consumables, except the air-filter replacement on Indian, BMW, Moto Guzzi, Ducati, Japan and KTM models. For other work, the cost of parts and consumables is not included unless stated otherwise. This price list is for information only and does not constitute a binding offer. Valid from 2025 until the next edition.
